

## **Colonial Plastics, Inc. Appoints New Plant Manager**

*Certified Woman Owned Business and IATF16949 Registered*

Shelby Twp., MI – Colonial Plastics, Inc. ([www.colgrp.com](http://www.colgrp.com)), a division of Colonial Group, announced today that Rob Cummins has joined the company to further develop their growing portfolio of top quality production, service, and prototype programs for automotive and nonautomotive components (aerospace, appliance, etc.) using injection molding. Rob brings a wealth of experience within the Industry, having spent the last 26 years dedicated, 10 of those years in solar, after exiting the United States Marine Corps, to manufacturing. Rob has been largely influential in managing full programs, tooling, automation, plant builds and many large corporate accounts that included GM, FCA, Toyota, Nissan, Caterpillar, John Deere and Massy Ferguson.

Rob joins Colonial Group, Inc. as the Plant Manager to continue Colonial Plastics, Inc. success of designing, developing and producing the highest quality products possible using automated processes. As a Tier 1 manufacturer in the Plastic Injection Mold Industry, Colonial Plastics Inc. has a superior record of servicing many of the top companies in North America and Europe such as GM, Ford, Chrysler and Volkswagen Corporation. Rob comments “I am very excited to begin this new challenge within the Colonial Group family and look forward to working with the team to further develop their already successful expansion of production plastics using automation. I am equally fortunate to be joining such a respected company within the automotive industry that prides itself on top quality products.”

Richard Roberts, President of Colonial Plastics, said “Rob’s wealth of experience and industry knowledge has already proven to be a key addition to the Colonial Group companies. We view his appointment as a sign of our commitment to being a leading company in our industry. Our new innovations and the increasing demand from our customers, led us to look for such an addition to our team who will fit in with our philosophy of revolutionizing the plastics industry. We are very fortunate that we were able to find someone of Rob’s talent and I’m confident that he will play a key role in providing and executing high quality solutions for our customers.”

### **About Colonial Plastics, Inc.**

Colonial Plastics, Inc. is Colonial Group’s plastic injection molding division, proficient in manufacturing, assembling, and shipping quality parts. We run both mono and 2 shot rotary injection molding machines and we are very proud to be a Certified Woman Owned Business (WBENC) as well as IATF16949 certified. Colonial Plastics, Inc. has the versatility to meet customer specific requirements on production, service, and prototype programs. Over the past 25+ years Colonial Plastics, Inc. has taken the opportunity to perfect the mold injection and assembly process for a wide variety of customers.
